

Testimonial for Bernice Toh JiaYi

Bernice is a highly motivated and enthusiastic learner with a passion for Artificial Intelligence (AI), technology, and innovation. She consistently demonstrates curiosity, initiative, and a willingness to embrace new challenges, making her an excellent candidate for further studies in the technology field.

Beyond the classroom, Bernice actively pursues opportunities to deepen her knowledge and skills. She attended the NVIDIA Deep Learning Institute programme, AI Festival Asia 2025, and the ASME-YOLO Launchpad x AWS programme, reflecting her commitment to continuous learning and staying updated with emerging technologies. Her dedication and contributions have also earned her the ITE Community Scholarship.

Bernice possesses good problem-solving abilities and approaches challenges with a positive mindset. She is eager to learn from feedback and continuously seeks to improve herself. She has also demonstrated strong teamwork and leadership skills through her participation in the ITE Digitalisation and Sustainability Challenge and her achievement of 3rd Place in the Makers' Enterprise Challenge 2026.

During her internship at the National Healthcare Group (NHG), Bernice performed exceptionally well. She successfully developed an onboarding automation system, MATAbot, and three chatbot applications, showcasing her ability to apply AI and automation technologies to solve real-world problems.

Bernice's positive attitude, strong work ethic, passion for technology, and commitment to excellence distinguish her as a promising young talent. I am confident that she will be a valuable addition to your institution and highly recommend her for admission.

Sincerely,
